

Scalable & efficient learning device management

With thousands of mobile learning devices coming online to support remote and hybrid instruction, IT teams are having to grapple with the challenge of managing all these devices remotely. Lightspeed Mobile Device Management™ (MDM) ensures safe and secure management of student learning resources with real-time visibility and reporting essential for effective distance learning.

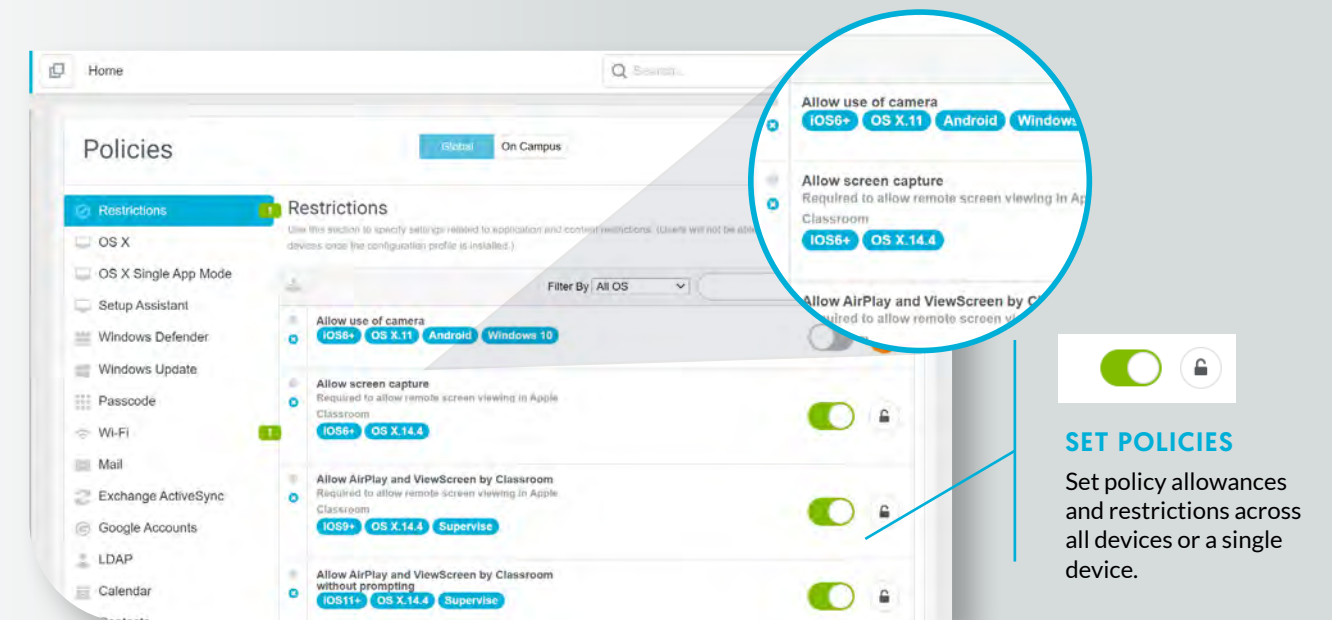

- Equip district IT leaders with a **centralized, cloud-based solution** for scalable device, application, and policy controls.
- Lessen the workload of the IT team with the **Self-Service App Library**, where teachers and students can access and install approved curriculum and learning tools.
- **Remotely deploy, change, and revoke hundreds of policies and educational applications** without handling any devices, while reducing typical downtime and costs.

CENTRALIZED DASHBOARDS

Issue, track, manage, and monitor every mobile device from a single set of dashboards at a central location.

Lightspeed MDM enables straightforward centralized IT control for any school or district's entire fleet of mobile devices.

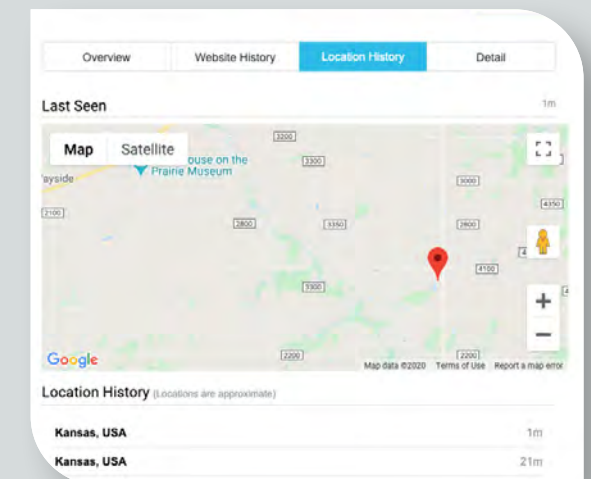

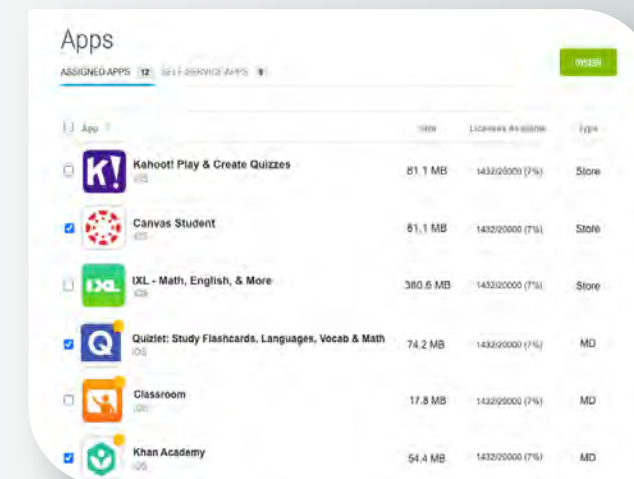

REMOTE INSTALLATIONS

Quickly and easily install any app across any and all school-issued devices with the press of a button.

RECOVER LOST DEVICES

Track, locate, wipe, and recover any lost or stolen school-issued device remotely.

Easily one of the best MDMs we've used. Its simple interface is easy to navigate and administrate. The reporting functionality gives you all the data you'd need at the click of a button and it ties in seamlessly with Apple's VPP program for app deployment.

- Lenny Locke, Systems Administrator, Hadley-Luzerne Central School District

What sets Lightspeed Mobile Device Management™ apart?

Multi-OS: Simplified, multi-OS device management. Comprehensive UI with powerful controls within an intuitive interface.

App Management: Push apps and manage app inventory from anywhere. Let users access approved apps. Easily recover and reassign apps.

Policy Restrictions: Ensure policy adherence over the air for WiFi, cameras, OS updates, and more.

Powerful Integration: Integrate with Apple® and Windows® programs: DEP, App Store, Managed Distribution, Business Store Portal, Defender, Apple Classroom, iBooks, AirPlay, and more.

Self-Service App Portal: Reduce workload of IT staff and allow students and staff to find and download approved apps. Add apps to the Self-service Portal by group, grade, school, and more.

Timed Policies: Start and end policies at specific days and times. Lock devices to a single app or for extended periods, like spring break.

Powerful Features

- ✓ Manage on and off-campus
- ✓ iOS, Mac, and Windows
- ✓ Device location
- ✓ Real-time dashboards & reports
- ✓ User/device reports
- ✓ Single app mode
- ✓ Inventory reports
- ✓ WiFi auto-join
- ✓ Touchless wipe
- ✓ Remote configuration
- ✓ Automatic load-balancing & fault tolerance
- ✓ Battery indicators
- ✓ Password clear/reset
- ✓ Integration with Apple App Store
- ✓ Microsoft 365 integration
- ✓ Policy inheritance
- ✓ Windows error reporting
- ✓ Bluetooth control
- ✓ Device status updates
- ✓ Integration with Windows Business Store Portal
- ✓ Single sign-on

Simple, over-the-air device and resource management for effective distance learning.

St. Joseph Uses Lightspeed Filter™ and Lightspeed MDM to Protect Their Students

CHALLENGE

St. Joseph's Catholic School propels technology initiatives with **Lightspeed Mobile Device Management** for easier access to the latest ed-tech tools.

As a technology-integrated school, St. Joseph's Catholic School needed to streamline the management of mobile devices. With a mixed environment of Chromebooks® and iPads®, St. Joseph's set out to make iOS device management and deployment easier. "Before, managing our iPads, if we had a new app that we wanted to deploy, it was really a laborious task with just Apple School Manager," shares Melinda Setchell, Director of Educational Technology at St. Joseph's.

HIGHLIGHTS

- After experiencing the ease of use and deployment of **Lightspeed Filter** and **Lightspeed Classroom Management™**, St. Joseph's opted for Lightspeed Mobile Device Management for the management of their iOS devices. "I was amazed at how easy it was to deploy [Lightspeed MDM]. It started working right away," states Setchell.
- Setchell says, "Using Lightspeed as our mobile device management system let us jump light-years from where we were before. Having quick access to the latest and greatest educational tools is really phenomenal and something we didn't have before using Lightspeed."
- Lightspeed MDM includes powerful integrations to ease app management including the Apple App Store. Using Lightspeed MDM enabled St. Joseph's tech team to access the latest tools and deploy them to devices quickly and easily. "It is actually fun to look at new apps, and teachers are actually getting excited about these. We can then push them out in real time," says Setchell.
- By choosing Lightspeed Systems® for web filtering, classroom management, and mobile device management, St. Joseph's can advance their technology initiatives and ensure a safe environment for students online in one platform. Setchell says, "[Lightspeed] helps our school implement technology in a responsible way and gives a safe environment for our students."
